System Description

MCTIMS is the enterprise training system for Training and Education Command (TECOM). It is a web-based system, accessible from any computer using IE 6.0 or higher and a Common Access Card (CAC) reader. MCTIMS maintains Training and Readiness Manuals, Curricula, MOS Manuals, MOS Roadmaps, Course Schedules, and Class Seat allocations. In addition, MCTIMS is used to input and track student registrations, test scores, class standings, and course completions. Recent enhancements enable operational force units in the conduct of unit training management and readiness reporting. MCTIMS is resident

History/Background

- Original focus was to support the formal learning center and the curriculum development process.
- Expanded to include interfaces with sister services for formal school registrations.
- MCTIMS is expanding to include:
 - » an OPFOR centric capability that supports unit training management and readiness reporting.
 - » access to all training requirements, status, and historical records associated to an Individual Marine.

Operational View

- Enterprise System
- Over 21,000 Active Users world wide
- 14 Current and 1 Future Modules
- Supports standardized training and education
- MCO 1553.2B

 - Design Military Occupational Skill (MOS) Pipeline Tool
 - Other initiatives
 - » Standardization of Graphical User Interface (GUI)
 - » Standardization of Functionality across Modules
 - » Stabilization of Architecture

Program Challenges

- Funding
 - » Within current FY12 requirements
- Possible knowledge transfer for system sustainment
 - » Exercise Transition Plan
 - » Transfer Updated Systems Documentation
 - » Transfer Equipment
- Certification and Accreditation
 - » ATO as of 14 July 2010
 - » v2.0.x.x
 - » HW/SW refresh in FY 2012

Acquisition Strategy

➤ Overall Strategy

- » Improve MCTIMS functionality, commonality, availability, reliability, integration, and multiple system interfaces

➤ Approach

- » Maximize use of the MCSC Software Enterprise License Management System (MCSELMS) and Marine Corps Common Hardware Suite (MCHS)

Contracting Strategy

- Phase I – Operations and Sustainment Contract
 - Knowledge Transfer
 - Maintenance
 - Hardware/Software Refresh
 - Interface
 - (8) month base
- Phase 2 – Operations and Sustainment / Development Contract
 - Maintenance
 - Interface
 - Development
 - MCEITS Migration
 - Hardware/Software Maintenance
 - (3) Year Option

Logistics Considerations

- Ensure acquisition logistics activities and products align with configuration management and system engineering activities
- Ensure performance metrics are captured
- Contracted Vendor Support
 - » System Support
 - System maintenance and enhancements
 - System development and deployment
 - System development and operational tests (+GATs)
 - Configuration management linked to Requirements Traceability Matrix (RTM)
 - » End User Support
 - Help desk and training
 - Advanced system features and analytical functions

Engineering Considerations

- Guidebook for Acquisition of Naval Software Intensive Systems
 - » https://acquisition.navy.mil/rda/home/organizations/dasns/rda_cheng
- Systems Engineering Technical Reviews (SETR)
 - » DON Supplement to Guidebook for Acquisition of Naval Software Intensive Systems: Software Criteria and Guidance for SETR (<https://acc.dau.mil>)
 - » MCSC Technical Review Handbook v1-04
 - » PM TFITS Interim Policy Letter 1-11
- Product Work Breakdown Structure
 - » MIL-STD-881C Appendix K Automated Information Systems
- Information Assurance
 - » STIG / IAVA / IAVM / OpDirs Compliance
 - » CND Scanning
